EDUCATION

Singapore University of Technology and Design **Singapore**
Bachelor of Science in Architecture and Sustainable Design (ASD)
ASEAN Undergraduate Scholarship Holder **Sep 2023 – May 2027**

STARTUP

Somewhere – Gamified Dating App **Aug 2026 to Present**
Product Designer (UI/UX) | Funded by SUTD Baby Shark Funds

- **Conceptualised a gamified dating experience** where users explore a virtual Singapore, meet other players, and form connections through shared interactions.
- **Designed the end-to-end app flow and core interaction concepts**, integrating traditional dating features with a navigable 3D social environment.
- **Designed and modelled stylised 3D environments** inspired by Singapore, establishing the visual world and spatial experience of the platform.
- **Created customisable 3D characters**, clothing, hairstyles, and accessories to support self-expression and social interaction.

Easyconvo – Phonic Learning App for Kindergarten **Sept 2026 to Present**
Product Designer (UI/UX) | Early-Stage EdTech Startup

- **Designed student and teacher experiences** for **a phonics learning platform** supporting early literacy development.
- Conducted usability testing and translated user feedback into improvements across learning activities, feedback flows, and teacher dashboards
- **Developed user flows, storyboards, and prototypes using Figma** to make phonics practice engaging and age-appropriate for young learners.

WORK EXPERIENCE

WAVE Design Consultants **May 2026 to Sep 2026**
Architectural Intern

- **Produced precise AutoCAD construction documentation** for international residential projects
- **Produced high-fidelity physical scaled models** for international residential projects

a+pgrp
Architectural Intern **Sep 2025 to Dec 2025**

- **Produced precise AutoCAD construction documentation** and **SketchUp 3D models** for international hotel and local projects
- **Produced high-fidelity SketchUp models and renders** for an A&A hotel pool project
- **Digitized manual legacy drawings into editable CAD formats** while maintaining original drafting conventions

Singapore University of Technology and Design
Urban Sketching Workshop, Teaching Assistant **Jan 2025 to May 2025**

- **Coordinated classes and streamlined** communication between 100 participants and instructors.

Undergraduate Teaching Opportunities Program, Teaching Assistant **Sep 2024 to May 2025**

- **Volunteered** as peer tutor for 50 students, **helping in class** with activities and assignments, ensuring student comprehension.

ACADEMIC PROJECTS

Stacked Streets | The Future of Shophouses **Jan 2026 to May 2026**
Term 6 Design Studio Project | Individual

- **Conceptualized** a vertical co-living/working neighbourhood along the Bishan Riverfront **to address e-commerce shifts and rising commercial rents**
- **Designed vertical and horizontal circulation systems to streamline physical user workflows and interaction**

The Wandering Archive | Speculative Library Project **Jun 2025 to Aug 2025**
Term 5 Design Studio Project | Individual

- **Conducted extensive user and cultural research** to develop comprehensive information architecture and world-building narrative for a nomadic user demographic
- **Engineered high-fidelity visualizations**, including photos and videos, using **Unreal Engine 5**, **Blender, and Adobe premiere** to communicate design intent
- **Translated abstract storytelling concepts into a detailed 3D environment and 2D architectural drawings/ diagrams**
